Career Objective

Final-year engineering student focused on programming. Looking for a role where can learn through hands-on experience, contribute to real projects and keep improving towards becoming a developer.

Education

Bachelor of Technology in Computer Science and Engineering

Jaipur Engineering College and Research Centre, Jaipur

CGPA: 8.77

2022 – 2026

Skills

Programming Languages: C, C++, Python, Structured Query Language

Web Technologies & Tools: HTML, CSS, Tailwind, JavaScript, ReactJS, Git, GitHub

CS Fundamentals: Object Oriented Programming, Operating Systems, Database Management System

Soft Skills: Flexible, Team Player, Creativity, Collaboration, Adaptability, Time management

Projects

PrepMate AI

Tech Stack: Tailwind, React.js, Node.js, Express, MongoDB, JWT, Google Gemini API

- Built an AI-powered interview preparation platform integrating **Google Gemini API** for role-specific, experience-tailored Q&A generation.
- Implemented **secure JWT-based authentication** with token validation, protected API routes, and scalable Node.js + Express.js backend APIs.

EchoNest

Tech Stack: Tailwind, React.js, Node.js, Express, MongoDB, JWT

- Developed a journaling app that stores memories in real time using a MongoDB-backed system for managing multimedia entries with associated timestamps.

Voice Assistant

Tech Stack: Python and its libraries, Open AI

- Built a Python-based voice assistant for laptop using OpenAI with speech recognition, text-to-speech, and real-time contextual responses.

Trainings & Internships

PwC Launchpad 2025

2 Feb, 25 – 11 July, 25

- The PwC Launchpad program provided hands-on experience with real-world challenges and industry-leading practices, enhancing my problem-solving skills and broadening my perspective.

Full Stack Web Development – UpFlairs Pvt. Ltd.

July, 24 – august, 24

- Gained hands-on experience in front-end and back-end development. Contributed to the creation of multiple web applications.

Python Programming – UpFlairs Pvt. Ltd.

Sept, 23 – Oct, 23

- Developed real-time projects and scripts using core Python and libraries. Strengthened programming fundamentals and logic building.

Achievements & Extra-Curricular Activities

- **Smart India Hackathon 2023** – Selected among the top 35 teams out of 200, demonstrating innovative thinking and technical problem-solving in a team-based national competition.
- **Core Member, Team Aashayein** – Coordinated 24×7 blood and SDP donor arrangements in Jaipur. Led awareness campaigns, health checkups, and blood donation camps.
- Served as **Creation Head** and **Anchor** for multiple college seminars and events, leading content creation, stage coordination, and audience engagement.
